Time Management

"Time is the most valuable coin in your life. You and you alone will determine how that coin will be spent. Be careful that you do not let other people spend it for you." Carl Sandburg

Time management is the process of planning and exercising conscious control of time spent on specific activities, especially to increase effectiveness, efficiency, and productivity. (Wikipedia) Time management is an optimal use of time. Time is a dynamic resource; only people who use it wisely will succeed. Planning is extremely important when it comes to managing the use of time. It is important to manage your time well. When time is managed and organized wisely; it can make the difference between a productive day and a very hectic day. Using time management in an ordinary day can help reduce stress and make life easier. Without having a plan on how to manage time, it can create stress in life and also forget important dates and deadlines.

When we fail to prioritize our time effectively, daily life can go down into chaos. All research shows that poor time management causes stress. Time cannot be managed; it can only be controlled by each person and how time is run. One of the main problems that many of us face is frequent procrastination. Procrastination means to postpone a task or a work for later. One can be distracted by the phone, television or whatever. As a result of procrastination; the work is not done properly and usually ends up rushing and doing it at the last minute.

Time is a unique resource. It is essential, intangible, irreplaceable, irretrievable and therefore invaluable. It is distributed fairly and evenly. Everyone's day is only 24 hours, no more and no less. Each job takes time. Time without energy is of little value; for example, if one is seriously ill, the duration of the illness is practically useless. Time is money. Time is also a measure of effort.

Time can be divided into three aspects to apply management techniques:

- (a) Biological: Relating to bodily functions.
- (b) Social: Relative to self, family and society.
- (c) Professional: Relative to professional activities / time spent at work.

It is essential to maintain a balance between these three aspects. Any imbalance can be unfavorable to their physical and mental health and can harm the person in the long term. It is therefore essential to allocate your time as balanced as possible to these three aspects. Time management is essentially a matter of self-discipline, although it is affected by external factors. We must cultivate

the art of enjoying both work and leisure. It is essential to maintain a balance between biological, social and professional time to improve its effectiveness.

There is a famous saying: "Time is money"; But now we can also that "Time is life". Time cannot be stored or put for later use. The best we can do is to use time constructively. It is the only thing in the world that we cannot store for the future. The value of time is in the moment and must be extracted from the given moment. For example, today's time can never be stored for future use. We can either use it today or lose it forever. The principle of time is therefore either USE or LOSE!

All great persons who have achieved success in life have used the secret of optimal use of time. So in conclusion it can be said that anyone who wishes to be great in life must learn to use time greatly. Don't let the precious moment's just slip by in idle gossips and insignificant activities. Make the best use of time by devoting your each and every moment to character building and skills development.

Women's Empowerment through Health, Education, Safety and Security

Women empowerment in India is little lagging behind than other Western countries. It is necessary that India takes initiatives to empower women in the country and bring gender equality. It can be said that gender equality is necessary to empower women

Women empowerment means empowering women physically, socially, and emotionally. When women in the country are empowered with education and career, they are improving the economic status of the family and help reduce poverty in the country. With women's empowerment, the productivity of the family and the entire community improves. It is said that when the women in a family are educated the future generation is getting a better chance. Women's empowerment is a complex issue and it is an enabling process which will only be achieved when an improvement in the condition of women in terms of health, education, safety and security (including social security, financial security etc.) is achieved. Health: Every third Indian women is undernourished and every second is anemic due to malnutrition. In order to improve the health status of women several measures have been taken by the governmentlike Janani Suraksha Yojana, Janani Shishu Suraksha Karyakram (jssk), Mother and Child Protection Card, Mother and Child Tracking System, Maternal Death Reviews (MDR)

Education:Many programmes are being implemented by the government in the fields of elementary, secondary, higher and technical education like Right to Education (RTE) act, 2009, Sarva Shiksha Abhiyan (SSA), Padhe Bharat, Badhe Bharat, Vidyanjali (school volunteer programme), Rashtriya Madhyamik Shiksha Abhiyan(RMSA), Udaan (by CBSE) for girl students, Rashtriya Uchchattar Shiksha Abhiyan(RUSA), Pradhan Mantri

Vidya Lakshmi Karyakram

Safety and Security: . Some of the recent enabling legislations to address gender based violence to provide safe environment for women to work and live and fulfill their potential are, for example. The Criminal Law (Amendment) Act, 2013, The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013, The Protection of Women From Domestic Violence Act, 2005, h. The Maternity Benefit Amendment Bill, 2016, . Nirbhaya Fund- women's safety and prevention, protection and rehabilitation under which

one stop centres are giving medical aid, police assistance, legal and psycho-social counseling and temporary shelter to women affected by violence, Women Helpline for providing 24 hour emergency response and National Emergency Response System are also operating and so on.

Many social problems in India hinder the empowerment of women. Gender-based violence, abuse, inequalities in reproductive health, economic discrimination, traditional practices are some forms of inequality targeting women. It is important for our country to tackle all social problems against women and to support the empowerment of women in a fully fledged manner. Women must empower themselves by being strong and demonstrating power in a society dominated by men. They must take the initiative to run the domestic system like men and must manage all financial activities at home. Every change is said to start at home. So, as citizens of India, we must change our mindset and support the empowerment of women by helping the women in our lives to gain power in the household and in society. As a girl and a woman in society, you must empower yourself by becoming independent and present your power in all aspects of life.

Let us ensure that the women of our country are empowered in all areas of life.

Concentration Power

Concentration is the essence of all knowledge; nothing can be done without it.

People feel that it is very difficult to concentrate or focus on a task, job or goal or one's work due to preoccupation with extraneous matters. It might be problems in relationships with colleagues, friends or family members or any other issue that is preying on the mind. 90% of thought force is wasted by the ordinary human being and therefore he is constantly committing blunders; the trained man or mind never makes a mistake. To me the very essence of education is concentration of mind, not the collecting of fact.

Such preoccupations pull our attention away from the matter in hand, thereby leading to drastic results. To develop the ability of concentration, one needs to train one's mind and focus on the quality of thoughts. Stabilizing the digressive thoughts is nothing but concentration. When we concentrate on any pure thought, it starts to stabilize the mind, which brings peace of mind.

It is just like when we drop a coin in muddy water, we are unable to see the coin, but if we drop it in clear water; we can see the coin clearly. Here, it indicates that concentration is possible only when we have clear and positive thoughts, while futile and waste thoughts disturb the inner tranquility.

When the mind is silent, there is happiness inside and outside. It is a great asset and advantage to be able to silence the mind when its services are not needed.

To conclude concentration helps us to think in a higher, concentrated way – thinking less and thinking powerful. Pure thoughts generate a lot of clarity, focus and spiritual force which helps to achieve success in life.

Future Prospects of Accounting Education and Research

Till people will earn money in India, future of accountants is secure and bright. At the end of the day, only an accountant can calculate the profit/loss from the business/ profession.

Till Government will levy tax, future of accountants is bright. Be it finance, audit, accounting, tax or overall management services,

Chartered Accountants are still very much in demand at least in India. And this demand is not going to be decreased anytime in future.

Since 2014, the Indian government has initiated reforms to push the country towards a cashless and cleaner economy. The best-known of these are demonetisation, under which the 500-rupee and 1,000-rupee currency notes in circulation were declared invalid legal tender in November 2016, and the goods and services tax (GST), rolled out in July, 2017 which brings indirect taxes at the state and central levels under one umbrella. As these reforms push Indians towards greater transparency in their dealings, public accountants in the country are finding themselves in the role of trusted advisers much more than before. These overarching changes on multiple fronts mean that businesses are looking for far more from their tax consultants than before. India Accounting Services Market is expected to witness robust growth by 2024, owing to the rising demand of accounting services to ensure effective management across different businesses. Factors such as growing workforce, government initiatives towards creating more employment avenues and increasing start-up culture has propelled the demand for accounting services for individuals as well as companies. Growing demand of payroll services across various companies to ensure proper management will drive the growth of the market during the forecast period. Moreover, the anticipatory arrival of the Goods and Services Tax (GST) is also expected to have a positive impact on the accounting services market as businesses will look towards remodeling their supply chains to take advantage of the new tax structure post GST. Based on the service type, tax preparation service is expected to dominate the market by 2024 owing to growing number of new businesses in the country and rising equity markets.

Government initiatives such as introduction of Make in India and efforts towards Digital India to attract investments from foreign countries are expected to drive the growth of the market by 2024. The government of India is likely to allow multinational firms to register as auditors, which is expected to drive competition in the market and act as a driver for the accounting services market. These changes of Indian economy also require the knowledge of International Financial Reporting Standards and Indian AS on the part of accountants and students as well to understand the GAAP

Say No to Noise Pollution

How many times have you felt irritated by the unnecessary horn of vehicles on the road? In addition, are we not disturbed by the loud noise of the machines under construction near us? All these sounds not only irritate us, they also harm us physically. This is what noise pollution is for. Today, we are all so insensitive to the noise pollution from their activities. Noise or noise pollution has now become a serious problem. Large cities are the most prone to these noise pollution. Commercial vans, movie songs, functions or weddings muffle us with their decibels. Vehicle horns honk in extraordinarily loud sounds.

In fact, loud and unwanted noises don't just affect our hearing; it also has a slow poisoning effect on the brain. Like other types of pollution, the remedy for this dangerous curse belongs to men themselves. The government or the High Court can contain the nuisance by applying strict measures.

The World Health Organization says that anything below 70 decibels is not dangerous and will not cause harmful effects to living organisms. However, sounds over 70 dB are considered dangerous. The excessive amount of noise in the environment makes it dangerous to live. Unpleasant sounds and noises can cause imbalance in nature. The high noises emitted by different means can make a person irritable and even become sick with different abnormalities in the body. In particular, noise pollution affects the elderly because they are weaker than they were in their young age and their organs also age over time. Pregnant women are also advised to stay away from these very irritating noises that cause noise pollution

Even as the world celebrated 'No Honking Day' on April 25, vehicles on roads in urban India remained oblivious to the high levels of noise they were contributing to pollution. As per WHO's estimate, around one million healthy lives are lost due to the deafening sounds. Loud noise can cause many health issues like high BP or heart related disease. more than 80 decibels nice is bad for the ears, and if sounds at this level persist for a stretch of over eight hours, then one can possibly become deaf

Many initiatives can be taken to curb the growing menace of abnormally high noise levels on the roads, and unnecessary honking. We can start the 'Do Not Honk' campaign with support from traffic police and other NGO in urban area having high noise pollution.this can create awareness among bike riders car drivers and other vehicle drives to reduce unnecessary and relentless honking. For Example Awaaz Foundation, an NGO is working towards curbing noise pollution in the city and they have , started a unique initiative, 'HornVrat', which literally translates to 'fast from honking,' in order to encourage drivers in Mumbai to refrain from unnecessary honking, in association with Maharashtra Transport Department, Rickshawmen's Union, and Mumbai Police. . The Maharashtra government, on April 24, launched a 'No Honking Logo' as part of the state government's initiative to spread the awareness about 'no honking' among citizens.

What is an SIP?

An SIP or a Systematic Investment Plan allows an investor to invest a fixed amount regularly in a mutual fund scheme, typically an equity mutual fund scheme.

Many investors think that an SIP is a product. It is not uncommon to come across a query - can I invest in an SIP to achieve my goal? An SIP and mutual fund schemes are not synonyms. An SIP is a mere tool that helps you to invest regularly in a mutual fund schemes, mostly in equity mutual fund schemes. An SIP helps you to stagger your investments in equity mutual fund schemes over a period. Most mutual fund advisors do not recommend investing a lumpsum in equity mutual funds.

Why should you SIP?

One, it imparts financial discipline to your life. Two, it helps you to invest regularly without wrestling with market mood, index level, etc. For example, if you are supposed to put a fixed amount every month in a mutual fund scheme, you need to find time to do it. When you have the time, you might be worried about market conditions and think of postponing your investments. Or you might be thinking of investing more if the mood is optimistic. SIP puts an end to all these predicaments. he money is automatically invested regularly in a scheme without any effort on your part.

What are the other benefits of SIPs?

SIPs help you to average your purchase cost and maximise returns. When you invest regularly over a period irrespective of the market conditions, you would get more units when the market is low and less units when the market is high. This averages out the purchase cost of your mutual fund units. Another benefit, called the eighth wonder of the world by some, is the power of compounding. When you invest over a long period and earn returns on the returns earned by your investment, your money would start compounding. This helps you to build a large corpus that help you to achieve your long-term financial goals with regular small investments.

How much money do I need to start an SIP?

You can start investing in a mutual fund scheme via SIP with a minimum of Rs 500.

Can I customise my SIP?

Yes, you can. Though the most popular SIP is investing a fixed amount every month, investors can customise the way they put money via SIPs. Many fund houses allow investors to invest monthly, bimonthly and fortnightly, according to their convenience. Apart from this, Step-up SIPs allow investors to increase the SIP amount periodically. 'Alert SIP' is another form of the regular systematic investment plan which sends an alert to the investor to buy more when the markets are down. In case of the 'perpetual SIPs,' investors don't have to choose the end date of the SIP. Once the goal is met, the investors can stop the SIP by sending a written communication to the fund house.

Different colors attract me,

The flying style distracts me,

The beauty forces me to propose her...

I then caught her, to feel...

But the innocence made me to free her,

Slightly leaving her

made my fingers colorfull...

I came to know about her boyfriend,

Flower!!!

And this made me jealous.

But the beauty melted me,

and I became a one sided lover.

My mind was totally involved in her

I saw other side,

My pen noted my every feeling about her!!!

ભારત મા એક પંકત પ્રખ્યાત છે. "યત્ર નાયસ્તુ પુજ્યંતે રમંતે તત્ર દવતા" આનો અથ એવો થાય- છે ક જ્યા માફલા ની પુજા થાય છે. જ્યા માફલાઓ નુ સમ્માન થાય છે. ત્યા દવ નો વાસ થાય છે. અને એક સ્ત્રી વિશે આપણે જટન્નુ લખીએ તેટન્નુ ઓપ્ટુ છે. કારણ ક એક સ્ત્રી જ માતા છે. એક સ્ત્રી જ બહન છે, એક સ્ત્રી જ ાદકરા છે, એક સ્ત્રી જ પત્ની છે. આપણે કટલાક મહન્નુભવોને માનીએ છાએ. તેમના બતાવેલા માગ પર ચાલીએ છાએ જમક, ગાંધીજી, સરદાર પટલ, જવહરલાલ નેહન્દુ, અખ્દુલ કલામ વગેર જવા મહ્આનુભવોને પણ જન્મ આપનારા પણ એક માફલા જ છે. કોઇ પણ માણસ એક સ્ત્રી ના કારણે જ દુનિયા પેદા થાય છે. પરંતુ તેજ માણસ સમજદાર થઇ જતા સ્ત્રી વિશે નીયા વિચારો રાખે છે. કોઇક બાજુ માફલા ને દવી ગણવામા આવે છે, તો કોઇક બાજુ માફલાને પગ ની પાની ગણવામા આવે છે.

Why Youth of India addicted Towards Mobile Games? Reasons and Solutions

• Introduction

Mobile games are games designed for mobile devices, Such as smartphones, Today's mobile phones- particularly smart phones – have a wide range of connectivity features including infrared, Bluetooth, Wi-Fi and 4G. These technologies facilitate wireless multiplayer games with two or more players. They are just a game then why the youth of our country India is so addicted towards it? Lets See! There is the reason following it is the solution for addiction.

• Reasons and Solutions for addiction

Temporary satisfaction from problems,

Every person has various sort of problems in life, If you are a student there is exam related pressure, If you are a working professional there is job related pressure, Every person requires some temporary escape from daily life problems. The major part of the youth play mobile games like PUBG, Call of Duty etc. for temporary escape but for some it is books, Tele-vision, sports and other activities.

• Solution

Instead of wasting time in playing mobile games the youth should use this time in doing constructive things like reading books, Sports activities, learning new languages and other activities for relaxation from life problems.

• Social Requirement

The one thing that makes mobile games more addictive among youth is that they can socialize and talk with each other while playing the game. If any person does anything socially it makes more fun and engaging to do.

• Solution

The solution possible for the reason is that one should select an alternative which can be done socially with friends because doing things alone can exclude the person from the society, find hobbies or interest that can be done with friends.

• Creates a purpose and sets a goal

Mobile Games creates a sense of purpose and goal among the youth, which is missing from the real life. In mobile games like PUBG at times they show you your level and

creates a goal where you need to reach to become a better player. Which creates a urge in them to play more.

Solutions

The solution for the above reason is simple yet difficult, If you do different things like if you read different books you can also create a purpose and set a goal in life.

• Rewards And achievements

Mobile games gives you ranks and rewards which motivates the youth to play more. It is human tendencies that we always want to increase our rank and earn more and more rewards. Constant growth and rewards in anything drives you more towards it.

Solutions

The solution for above is you cannot achieve your goals if you do not know what your levels are. For a better tomorrow instead of playing games, you should choose your goal and set levels. Reward yourself whenever you complete a level this will motivate you towards your goal.

• Makes you a virtual hero

Mobile games make you a virtual hero. Many people have fantasies to become a hero, commando etc. which is virtually fulfilled by this games.

• Solution

The solution for this is that you can relieve your fantasies in different things like there are physical games like paint ball in which you can become a commando, and games that you have played in your childhood like Chor police.

• Easy availability

The one thing that makes mobile games more addictive is that it can be played anywhere and at any time. If you want to play cricket you need bat, ball, ground, friends and lot of other investments are required which makes it hard to execute. It is a human tendency that we choose easy things over hard.

Solution

The solution for the above is you delete the game after every time you play it. Try to decrease investments in other hobbies that you pursue.

• Change habit of addiction

The youth of the India is addicted with the surroundings for example you will likely eat popcorn in a theatre rather than in a conference room same way the group around us creates a habit of addiction.

Solution

The solution for this is you need to find signals and live in group where people are more attracted towards physical hobbies rather than playing games. The people you be with inputs a lot in your habits.

Conclusion

So from this we can conclude that any habit or addiction needs time to transform, it can take up to 20-30 days. The youth of India need to focus and decide what they want to do, The above are the reasons which makes mobile games so addictive and if they want solution then they need to understand every above solution and attack them from each angles, find alternatives to satisfy the above given solutions.

તમે બધાએ સાંભળ્યું હશે ક છોકરા બનવું અઘડું છે. અને એ સાચું પણ છે. પણ તમે જમ વિચારો છો એમ છોકરો બનવું સરળ નથી. જવી રાતે એક છોકરાનો પહલો પ્રેમ તેના પપ્પા હોય છે તેવીજ રાતે એક છોકરાનો પહલો પ્રેમ તેની માં હોય છે. જ્યાર એક છોકરાનો જન્મ થાય છે ત્યાર તેની પાસેથી ખુબજ આશા રાખવામા આવે છે. જમ ક તેને તેના પિતાથી સવાયું બનવાનું છે. પારવારને આગળ લઈ જવાનો છે. તે આશાના બોજ નીચે દબાઈ જાય છે. ઘણી વખત તો તેને કોઈ પૂછતું પણ નથી ક તાર શું કરવું છે.

છોકરાને એક વાત નાનપણથીજ શીખવાડવામાં આવે છે અથવા તે જાણે છે, ક રડાય પણ નહા. કારણ ક તું એક છોકરો છે. પછા ાજદગીમાં ગમેતેવી મુસીબત આવે તેણે હમેશાં ચહરા પર હાસ્ય રાખીને તેનો સામનો કરવાનો છે. છોકરાના દુદન પરથી એના દુખનો અદાજો લગાવી શકાય પરંતુ એક છોકરાના હાસ્ય પરથી કોઈ પણ અદાજો ન લગાવી શક ક તે કટલા દુ:ખ સહન કરાને બેઠો છે.

આજના સમય માં આપણે જોવા જઈએ તો છોકરા વિશે લોકોની માનસિકતા ઘણી બદલાઈ ગઈ છે. આનું એક ઉદાહરણ લઈએ તો માની લો ક રસ્તા પર એક છોકરો અને છોકરાનો અકસ્માત થયો. અને ત્યાં દસ વીસ લોકોની ભીડ જમા થઈ છે અને લોકોમાં સૌથી પહલા તો એજ યયા હશે ક નક્કા વાંક તો છોકરનોજ છે. તેઓ વિચારતા નથી ક વાંક છોકરાનો પણ હોય શક છે. અહાયા હું એવું નથી કવા માંગતો ક છોકરા ખરાબ હોય છે પરંતુ લોકોની છોકરાઓ વિશેની નકારાત્મક મનસિકતાએ તેમનો નજારયો બદલી નાખ્યો છે અને છેલ્લે આ લેખના માધ્યમથી હું એટલુ જ કહવા માગીશ ક અમુક છોકરાઓના લીધે બધાને ખરાબ ગણવા યોગ્ય નથી. તેમણે પણ લાગણી હોય છે. તેથી આ વિશે આપણે બધાએ પોતાના આભપ્રાય બદલવાની જરૂર છે.

The world is full of chaos, the physical existence is avail but the presence Of mind is fading away. Still we are marching to the destinations which are Fixed in some cases and still some are not fixed yet. So for the moment Of break we need a space and the comfort where the physical and mental Attainment of solitude could be found. Now it depends upon the person What break actually means to him or her. The networking could be an option So that one could have the exploration of different mind-sets and the thinking. At that time during the meetings and the formal communications at the Corporates, the boundaries and the limitations are always there. But if one would Be exploring the couple of personalities then there would be an exchange Of ideas and morale. You would get to know about the certain behaviour of yours which would be bit of awkward but still you won't regret it. And you would get a chance to know yourself. The warm conversations which you preferred to do with yourself are no more limited to you. Different age group have the various experiences that are useful for you for the rest of the life and the moments which You send with them are not more likely depicted but those are meant to be Felt when they are not around you. So keep exploring the new people and You would meet the people of different age those might be having a great Age difference or of same age but one thing would be obvious that you would Learn something and in an exchange your belonging ideas and thoughts might be helpful to the others. One more thing that might help you out during the life would be few personalities which would be having the fit compatibility according to yours and those would never be left for the rest of your life.

AMBITIOUS GOOD LIFE

-A Path of Success

Ambition means a strong desire for advancement or a praiseworthy desire. Ambition is the growth of a person's life. Human mind runs for success but forgets the precious stage of a good life. Ambition is a way in development of personality. What a success means to is the goal where one wants to reach. It differs from one person to another no matter what their form is, it just waves with time.

"Run for growth, Not for success, Growth is the way, Success is the end."

Profession is a growth whereas success is the development. It includes a similar path but not the thoughts. A person must think for their skills, think by their souls & the way they are unique from others. Everyone is striving for a good life but the foremost plan is an ambition. When you think for management how they work it directly relates to the ambition. One is in need to have an idol but I think idol is encouraging us for success but not for what we are living. Having a person as an idol is good but not who deceive you.

"Talent without ambition,
Life without aspiration,
Seeking without strategy,
Struggling without methodology...
Is what brings oversight to you."

I want to share my personal ideology, in my life I want to prove something and be that one for what I am here in this world. For that one moment where I can love my life knowing my ambitions. I had many aspirations but that all gathered and structured my life in a mold in which I can be the best. So, all for that I will say just one thing , first of all spend some time with your soul, think about your life and reach the way in which you are the best no matter what other person think about you. Take a stand for your own life and have an ambitious good life filled with success.

"Be ambitious, be tactful,
Be strategic, be enriching,
Feel yourself positive,
Work for your best...
YOU WILL REACH SUCCESS"

B.COM IS NOT JEM TEM

Aunt: What are you studying, Beta?

Student: I am studying Bachelor of commerce (B.COM).

Aunt: Oh! You are doing B.com, Don't do just B.com, do something else with that, do

something extra with it.

This is the apparent answer which I and all of the B.com students get it. And because of this attitude towards B.com, students and people take it for granted. Students think as it is an unstudied degree, and can pass by reading one night before, Yes, you can, with 5-6 GPA, but what about the knowledge which you need for your further career. And I am not against of them, we should do something extra with it, but it is also true that commerce degree is not worthless.

Let me tell you about B.com history, it was first offered by the University of Birmingham. The University's school of commerce was founded by 'William Ashley' an Englishman from Oxford University. B.com program is designed to provide the knowledge of a wide range commerce related subjects such as Accounts, Finance, Marketing, Economics, Management, Law and a lot more.

But as the commerce degree was considered as a middle and easy degree, if one is not capable of science and considering Arts as low subject than Commerce degree is easy. (mainly b.com. And it is also preassumed that B.com students doesn't able to find a good job with their demanded salary. Here I like to tell you that all company need the Accountant, and employ them with their condition, its depends on you how you grab it at your conditions. There are many advantage for the B.com students as they get more opportunities for post graduation such as CA, MBA, M.COM, CMA, LAW, ICWA and International Studies. Only the B.COM has different career options like Accountant, Tax Consultant, Human resources, Banker, Auditor, Stock Broker, Lecturer, Export Import manager, Finance Consultant, Event Manager, Travel

Manager, Government jobs, Lawyer, Entrepreneur, Hotel Management, Economist, Administrative Job, etc

From the <u>B.COM</u> degree , you get various opportunities, the one can go for the also learn professional skills and go for the business, And you all know how rich AMBANI is? How gaint the TATA GROUP is? And much we are habitual to shop from DMART which is founded by Mr. RADHAKRISHNAN DAMANI. These all rich people have the commerce background. Read once their story and you will get the idea. These all are the real heroes of the Indian Economy who lived in India with the top position in Indian economy and rule the business and dalal street. That need a dedication, ambition, power and a lot.

Commerce Degree is beyond our imagination, its upto you how you get and tackle oportunities. Be confident and smile, their is a fruitful future after this degree.

GOOD LUCK.

સંકલ્પમાં શાક્ત

જ મનુષ્ય પોતાનાં નિષ્યયમાં દ્રઢ અને અટલ હોય તે મનુષ્ય દ્ર નિયાને પોતાની ર.તે બદલી શક છે. ભારતમાં રહનાર મહાન વયાકત જને દશ માટ કઈક કયુ છે.એમણે સંકલ્પ કરલો અને સંકલ્પ પૂણ થયો છે .ઉદા. મહાત્મા ગાંધીએ સંકલ્પ કરલો ક અગ્રેજોને ભારત દશ માંથી બહાર કાઢાશ અને ગાંધીજી એ સંકલ્પ પૂણ કરાયો. એવા તો ભારત દશ માં બહુજ વયાકત છે.જને સંકલ્પ કરલો હોય અને પૂણ થયો હોય. ઉદા.સરદાર પટલ,સુભાષયંદ્ર,છત્રપતિ શિવાજી વગેર.

અગ્રેજીમાં કહવત છે. "where there is a will there is a way" મન હોય તો માળવે જવાય. પરાગ હોય તો પુષ્પરૂપે પાંગર,સંકલ્પ હોયતો સિહ્મરૂપે પારણામે સંકલ્પ બીજ સમાન છે.માનવીનાં મનમાં ઉત્કટ સંકલ્પો ગતિશીલ હોય છે. તે સંકલ્પનાં તરંગો કોય પણ કૃત્રિમ અથવા કુદરતી આવરણો ક અકુશોને ગણકાયા વગર દૂર-દૂર ભ્રમણકર શક છે. અને યોગ્ય જગ્યાયે જઈ શક છે.

સરોવર નાં કાંઠ શબરા બેસી રાતે રામનું નામ એક ાદન આવશે જરૂર મારાં અતરનાં આ રામ.શબરાનાં આ તીવ્ર સંકલ્પ રામ સુધી પહોચી ગયો અને રામ તેની જુપડાએ પધાયા. અનુણીમાં શિનહા હાથ નો હોવા છતાં તેને સંકલ્પ કરલો ક એક ાદવસ માઉન્ટ એવરસ્ટ સર કરા બતાવીશ, અને તેને સંકલ્પ પૂણ કયા.જોનાથન ાલવિગ્સટન સાગલના લેખક ારચાડ બાક કહ છે ક,"Thoughts are wings" સંકલ્પો એ પાંખો છે.

પહલાં સંકલ્પની પાંખ ફૂટવી જોઈએ.જોનાથન નામનાં ગતપંખને આકાશને પાર પામવાનો સંકલ્પ થયો અને પંખી ાદવ્યલોકમાં પહોચ્વું. સંકલ્પની સિાહ્નમાટ સંકાલપ્ત ઘ્યેયની સ્પષ્ટતા,શ્રહ્માં અને શ્રમ જોઈએ. પરાક્ષા પહલો નંબર લાવવા સંકલ્પ કર અને આખો ાદવસ ટાવી સમું જોયા કર, અને રખડવા કર તો સંકલ્પની સિાહ કવી રાતે થાય. માટ સંકલ્પની પાછળ શ્રદ્ધાં,વિશ્વાસ અને પુરુષાથ ન હોય તો તે શેખરયલ્લીનાં તરંગો જ કહવાય. એવરસ્ટ યઢવા સંકલ્પ કર અને ગરમ પાણી નહાવા જોએ તે કથાથી બંને?

The power of thought magic of the mind.સંકલ્પમાં અસિમ શાક્ત ભરલી છે.

નેપોાલન કહ છે. "સાયામાં સાયું અને ખરામાં ખરું ડહાપણ તે દ્રઢ સંકલ્પ છે. ાકટલીની વરાળથી ઢાંકણું ઊયું-નીયું થતું જોઈ સ્ટાવન્સ વિયાર ઊપડયોને સ્ટાવ એાન્જન શોધયું. કોલબસે સંકલ્પના સહાર અને જાનના જોખમે અમારકા ખંડ શોષ્યો.એટલે જ કવિ ઈક્બાલ કહ છે.: હુંઢને વાલો કો ફનિયા ભી મિલતી હ.

નરન્દ્ર ભાઈ મોદા જયાર મુખ્યમંત્રી હતા. ત્યાર સંકલ્પ કરલો ક એક ાદવસ ભારત દશનો વડા પ્રધાન બનીશ અને તેને સંકલ્પ પૂણ કરાયો.

> અમે ભૂલ કરાએ? એવું તો કદા બને ના, આવા વિશ્વાસે રહવામાં શાય ખાઈ ગયા, નદા સમું વહતું જીવન અટકાવી , બંધ બાંધવાના સપનામાં શાય ખાઈ ગયા...

અતમાં ભારતીય સંસ્કૃતિમાં એવી પ્રણાલી છે. ક કોઈ પણ મંગળ કાય કરતાં પહલાં હાથમાં જળ લઈને તે કાય કરવાનો વાદક સંકલ્પ કરાય છે.
